

ProQuest Databases Activity

Directions: You will visit the SUHSD databases for this activity. The databases can be found at: <http://www.proquestk12.com>. You will need a username and password for this activity. Use a "Notes" page to record your answers.

1. Click on the link for the "Culture-Grams" database. Click on the "States Edition." On the map, click on "California." Read a little of the page. According to Culture-Grams, more what live in California than in any other state?
2. Return to the main products page. Click on the link for the "e-Library" database. Type in the search term "plate tectonics." Name one of the websites that is listed under results that you can visit to learn more about plate tectonics.
3. Return to the main products page. Click on the link for the "SIRS" database. Look at the results for "Your Top 10 Pro v. Con: Leading Issues." Click on the image for "Gun Control." According to the "Topic Overview," when did guns become part of American Society?
4. Choose a database and perform a search on a topic of your choice. Record what database you used, what term you searched for, and one thing that you discovered on the database.
